

April 2026

An update on the major revamp in Chelsea Heights

With revitalisation works along Thames Promenade shopping strip well underway, we're pleased to advise that we are moving forward with **stage two** of this project, a vibrant new community space at Heights Park!

The design (overleaf) aims to provide an inclusive experience and play environment for all and includes:

- A new shelter, picnic facilities and seating
- Playground relocation and upgrade
- A new fence along Thames Promenade
- Improved lighting and landscaping
- Upgrades to the existing path network and new path connections

Initial works on the playground, shelter, picnic facilities, fencing and landscaping will commence in late April and will take up to 4 months to complete, weather permitting. Upgrades to the existing path network, new path connections and lighting will follow.

project
page!

Access to Heights Park will be maintained throughout the works, with temporary fencing installed around the construction site for the community's safety. One access point off Thames Promenade and a section of adjoining footpath within Heights Park will be closed for a 1 week period as we upgrade these elements. Signage will be installed onsite, encouraging pedestrians to seek alternative routes through the park or via Wells Road and Chelsea Park Drive.

We apologise for any inconvenience during the works and will minimise disruption wherever possible.

Thames Promenade revitalisation works

Construction is well underway on the new footpaths, parking bays and garden beds along Thames Promenade, with landscaping and the installation of new street furniture to follow. Preparation work for the traffic lights is also progressing well. Businesses along Thames Promenade will remain open throughout the works, and we encourage you to support your local traders in Chelsea Heights.

Thank you to everyone who shared feedback during the consultation stage, your ideas helped shape these improvements. We can't wait to deliver this project for the community!
