

July 2026

Footpath construction – Jarrahdale Street, Cheltenham (East side)

We're improving safety and amenity for pedestrians by constructing a new footpath along the east side of Jarrahdale Street, Cheltenham, from 8 Jarrahdale Street to 113 Centre Dandenong Road.

The works will include:

- Construction of a 1.5m wide footpath along the eastern side of Jarrahdale Street between 8 Jarrahdale Street to 113 Centre Dandenong Road.
- Upgrading the pram crossing at the corner of Jarrahdale Street and Centre Dandenong Road.

Every year, we invest in Kingston's roads, paths, and drainage networks to support the current and future needs of our community. Please refer to the attached concept plan for more details.

Construction details

Construction is expected to take place in late 2026 and will take around 3 weeks to complete.

During the works, access to some pedestrian areas may be temporarily restricted. We'll work to minimise disruption and will provide clear signage for alternative pathways.

Additional details, including contact information for construction-related queries, will be shared closer to the commencement of works.

We look forward to delivering these improvements for the community.

Further information

For further information relating to this project please contact Meaghan Newbigin (Student Design Engineer) or Fleur Gascoyne (Coordinator Strategic Projects) via email at info@kingston.vic.gov.au or on 1300 653 356.
