## Drainage Upgrade at Torquay Close, Dingley Village

Every year we invest significantly in Kingston's roads, footpath, and drainage network to support the current and future needs of our community – and are focused upon creating a cycling and pedestrian-friendly Kingston.

We plan to construct a new drainage pit at the end of Torquay Close, Dingley Village to improve safety and access for our community.

The improvements include:

- Constructing a new drainage pit next to the footpath to drain excess stormwater (please refer to the enclosed plan for more detail).

Tree protection measures will be in place and all significant trees will be retained during the works.

### Construction Details

Works are expected to be completed by late 2025 and will take around four weeks to complete.

The construction works will restrict access to some pedestrian areas for a short period of time. We aim to minimise disruption and will provide signage for alternative pathways.

Additional information will be provided closer to the time of construction, with details on who to contact during this period.

We look forward to delivering these improvements for the community.

### Further information

For further information relating to this project please contact Laura Wen, Design Engineer or Glenn Olin, Coordinator Drainage Strategy and Future Works via email [info@kingston.vic.gov.au](mailto:info@kingston.vic.gov.au) or on ☎ 1300 653 356.
