

June 2025

To the resident,

Notice of upcoming works - White Street / Myrtle Street / McDonald Street, Mordialloc

Every year we invest significantly in Kingston's roads, paths, and drainage network to support the current and future needs of our community.

We plan to reconstruct sections of footpath and pram ramps along Myrtle Street, White Street and McDonald Street to improve the safety and usability for pedestrians and residents.

The improvements include:

- Reconstruction of the footpath along the west side of Myrtle Street
- Reconstruction of the footpath between the south-east corner of Myrtle Street and McDonald Street
- Construction of a shared user path along White Street

Significant trees will be retained, and tree protection measures will be in place during the works. We've attached a plan with further details.

Construction Details

Works are expected to be undertaken in late 2025 and will take around three weeks to complete.

At times, there will be restricted access to some pedestrian areas and driveways at 1-5 Myrtle Street. We aim to minimise disruption and provide adequate signage for alternative pathways.

We'll provide more specific information about who to contact and the timing of the works when a contractor is appointed.

We look forward to delivering these improvements to the community.

Further information

For further information relating to this project please contact Eli Hubbard, Design Engineer or Glenn Olin, Coordinator via email Info@kingston.vic.gov.au or on ☎ 1300 653 356.
