The drainage designer must complete and submit this form with the required drainage documents.

| Yes                      | No                       | N/A                      |                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------|--------------------------|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 1. Are drainage hardcopy and electronic plans enclosed?                                                                                                                                                                                                                                                                                                 |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 2. Have you read and complied with the requirements of City of Kingston's: <b>Civil Design Requirements for Developers Part A: Integrated Stormwater Management</b> to view document go to <a href="http://www.kingston.vic.gov.au/Property-Development/Engineering-Assesments">www.kingston.vic.gov.au/Property-Development/Engineering-Assesments</a> |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 3. To the best of your knowledge, does the stormwater drainage design comply with all the conditions specified in the planning permit and endorsed plans?                                                                                                                                                                                               |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 4. Does the design of all private stormwater drainage systems comply with AS/NZS 3500.3: 2015 Plumbing and drainage, Part 3: stormwater Drainage? If No, please provide details.                                                                                                                                                                        |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 5. Has the site been designed to prevent the inundation of buildings, garages or carports from overland flow caused by storm events up to 1 in 100 year ARI as per section 4 ?                                                                                                                                                                          |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 6. Does the design prevent concentrated stormwater from discharging onto adjacent properties?                                                                                                                                                                                                                                                           |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 7. Does the permissible site discharge comply with City of Kingston's specified requirements for this site as per section 5.1?                                                                                                                                                                                                                          |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 8. Does the site cater for the required volume of onsite storage and has it been designed to comply with City of Kingston's specified requirements for this site? If onsite storage is required, please provide computations.                                                                                                                           |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 9. Does the design involve the construction of public drainage assets such as easement drains or pipes within the road reserve? Excludes the connection into the Council drainage system.                                                                                                                                                               |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 10. Does the design achieve 'water sensitive urban design' best practice requirements specified by the Victorian State Government?                                                                                                                                                                                                                      |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 11. Does the design include soakwells? If Yes, provide soil and percolation test results and computations as per section 5.1.                                                                                                                                                                                                                           |
