

Street Numbering

The authority to allocate street numbering and addressing to properties is vested in Council under the Local Government Act 1989. It is a condition of your Planning Permit that street numbering is allocated by Council, acting in accordance with current policy and guideline (Australian/New Zealand Standard for Rural & urban addressing / AS/NZS 4819:2011).

Street Numbering/Addressing is on the Endorsed Plans?

Any reference to addressing or dwelling/unit/apartment and street numbers or street names on Endorsed Plans is indicative only. The developer generally allocates the numbering and addressing to a development for contractors, builders, surveyors and agents to reference on the development site. This should not be adopted for dwelling/unit/apartment and street numbers and/or street name purposes prior to the review and official allocation by Council.

What do I need to do in relation to the Addressing?

The onus is on the Permit Applicant/Land Owner to contact Council to determine dwelling/unit/apartment street numbers and street name details for the approved development. If the Permit Applicant/Land Owner adopts the street numbering or addressing from the Endorsed Plans, or where advertising and/or sales transact (off the plan) prior to Council's official allocation of the street numbering and addressing, it will be viewed to be non-compliant with the guideline and standard applied.

Who do I contact about the Addressing of the development?

Council's Property Data Department is responsible for allocating property address details to properties. It is highly recommended that developers and/or land owners contact the Property Data team to discuss street numbering and addressing requirements.

Please contact the Property Data team on (03) 9581 4317 or (03) 9581 4396 for more information.
