KINGSTON

26 April 2021

Dear Parents and Students

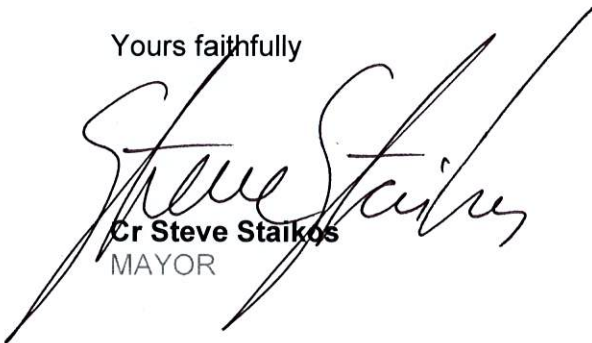

We are writing to contact you directly to pass on our personal apologies for any hurt or distress caused during the recent Diversity and Inclusion session delivered by Kingston Youth Services.

The session was intended to raise awareness about different perspectives and experiences in our community to build understanding and acceptance of our differences by discussing issues including disability, LGBTIQ+, culture and race.

We have suspended the Diversity and Inclusion program and please be assured we will conduct a thorough review as to what occurred. The review will include a thorough assessment of the course content and training provided to Kingston Youth Services delivering the program.

The School Principal and School Council President have both personally contacted Council to express their strong disappointment and I have extended our apologies for any distress this may have also caused to the broader school community.

Yours faithfully

Cr Steve Staikos
MAYOR
