George Woods Car Park Upgrade

Works to upgrade the George Woods Car Park are currently in the design phase. These works aim to increase parking numbers within the carpark and renew the aging pavement, are being funded as part of the Victorian Government's \$2.6 million commitment to improve boating activities in Mordialloc

Further information can be viewed online: www.kingston.vic.gov.au/Community/Accessibility-in-Kingston and www.betterboating.vic.gov.au/ramp-upgrades/mordialloc.

Better Boating Victoria has managed the recent pontoon improvements and is now working with Council to upgrade the carpark.

The proposed improvements will include:

- Relocating the car park entry, away from the pedestrian crossing to improve safety.
- Providing around 9 additional parking bays and a queuing lane for boat trailers waiting to access the ramp. This is expected to reduce congestion along Governor Road and side streets.
- Construction of a new footpath along Governor Road in front of the Car Park to improve pedestrian safety and accessibility and connectivity to the bus stop.
- Provision of an accessible bay for all abilities access.
- The removal of some trees that are in poor health and planting a larger number of trees around the carpark.

Please refer to the concept plan on the back for more information.

Construction details

The car park upgrade and associated traffic works are anticipated to commence during the off-peak boating season in 2022. Closer to the time of construction more information will be provided with details on the commencement date, and who to contact if any issues arise during works.

Council will work with you to minimise the impact of these works as much as possible.

Further information

For further information relating to the design stage of the project please contact Daniel Skinner, Senior Design Engineer via email Infrastructure.Administration@kingston.vic.gov.au or on ☎ 1300 653 356 or Tom Gilbert, Project Manager via email BBV.Communications@ecodev.vic.gov.au.
