July 2021

Longbeach Trail Resurfacing - Chelsea and Edithvale – Stage 2

Council is continuing to invest significantly in Kingston's roads, footpath and drainage network to support the current and future needs of our community.

Council is planning to undertake significant maintenance works to improve the section of the Longbeach Trail between Thames Promenade and Edithvale Road. Please see map overleaf for location details.

This stage will involve:

- Resurfacing of the granitic sand path to improve the quality of the surface by removing bumps and puddles.
- Where feasible, widening the narrower sections to provide a more consistent path width.
- Installing guide posts and bicycle safe fencing.

Construction details

Construction of Stage 1 – from Patterson River to Thames Promenade has been completed, and Stage 2 works are expected to begin in October 2021. Improvements to the remainder of the trail, between Edithvale Road and Mordialloc Creek, will be scheduled for construction within the first half of 2022.

Closer to the time of construction more information will be provided with details on the commencement date, and who to contact if any issues arise during works.

The construction works will involve the use of machinery such as the one pictured above. Council will work with you to minimise the impact of these works as much as possible.

Further information

For further information relating to the construction or timing of the project please contact Brian McNamara, Team Leader Roads & Drains or for matters relating to the design of the project please contact Glenn Olin, Design Engineer via email info@kingston.vic.gov.au or on ☎ 1300 653 356.

Visit www.kingston.vic.gov.au/longbeachtrail for the latest updates during construction.

community inspired leadership

LONGBEACH

TRAIL RESURFACING

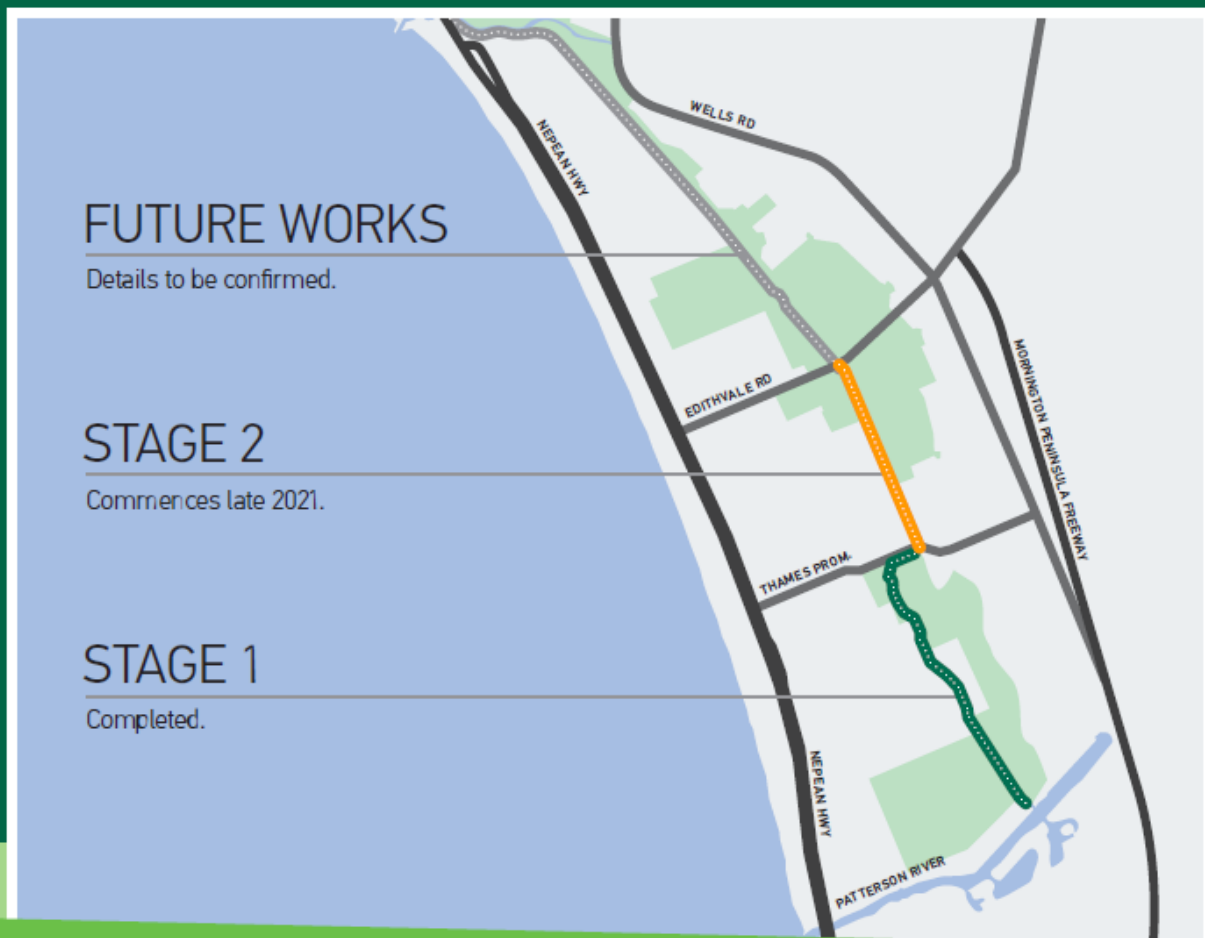

Council is upgrading the shared walking and cycling trail from Patterson River in Bonbeach to the Mordialloc creek, for the community.

The planned works include:

- Resurfacing of the granitic sand path
- Widening of the path in some sections to provide a consistent width
- Safety improvements

We look forward to delivering this project for the community.
