- 4. Items in Camera - Confidential**
  - N 145 Draft Green Wedge Management Plan** **Page 6**

**N 144                    Contract No. 11/69  
Gainsborough Road & Delville Avenue, Mentone  
Road Reconstructions – Tender Report**

**Approved by:** Rachel Hornsby – General Manager Environmental Sustainability

**Author:** Brian Trower – Team Leader Roads & Drains

**1. Purpose**

This report seeks Council’s approval to accept tenders for Contract No. 11/69– Gainsborough Road & Delville Avenue, Mentone – Road Reconstructions. It is proposed that **CDN CONSTRUCTORS PTY LTD** be accepted as the preferred tenderer for this contract based on their submitted tender of **\$919,832.75**

**2. Council Plan**

**2.1. Sustaining Kingston’s Assets**

2.1.1. Implement Kingston’s Asset Management program including:

- Identify & undertake priority works

**3. Background**

The sections of road covered by this contract have been identified for replacement as part of Council’s standard road condition survey. The existing guttering and road surface has reached the end of its’ expected life and is due for replacement to maintain a satisfactory road for local residents. Whilst rebuilding the road, Council is taking the opportunity to improve the underground drainage system along Gainsborough Road (from Delville Avenue to Sharan Avenue), Delville Avenue (from Southern Road to Allandale Road) and Sharan Avenue (from Gainsborough Road to Allandale Road).

Using Kingston’s Condition Rating of Road Infrastructure Manual, Gainsborough Road was given a condition rating for road surface and pavement of 7, and a kerb rating of 7 (a rating of 0 being a new asset and a rating of 10 is when an asset is unusable). Delville Avenue was given a road surface condition rating of 6 and a kerb rating of 7. This indicates that these two roads are either due for or overdue for a resurfacing treatment and the kerb and channel requires reconstruction.

On-site observations were carried out during the recent wet weather and water is ponding at numerous locations along this road for a width of 1.5m from the kerb. With the existing cracking in these roads, the ponding water is leading to accelerated deterioration of the road pavement. As these streets are located in an area with underlying expansive clays, the undulations will continue to worsen if no intervention is carried out. These observations have also been confirmed by an independent Geotechnical report on the road pavements, carried out by “Site Geotechnical”.

#### **4. Brief Description of the Work under the Contract**

The works involved in this contract includes the reconstruction of Gainsborough Road (from Delville Avenue to Sharan Avenue), Delville Avenue (from Southern Road to Allandale Road) and Sharan Avenue (from Gainsborough Road to Allandale Road. Items covered as part of this contract include:

- Replacement of all concrete kerbs on both sides of the road.
- Replacement of all concrete vehicle crossings.
- Replacement of the footpath on both sides
- Asphalt resurfacing of the road
- Upgrading of street drainage.

#### **5. Tenders Received**

Tenders were advertised in The Age on Saturday 9 July 2011 and closed at 2.00pm on Thursday 28 July 2011. Six (6) tenders were received, details of which are set out in the *Confidential Attachment*.

#### **6. Project Funding**

This project will be funded from Council's 2011/12 Capital Works Budget.

#### **7. Evaluation Panel**

The tenders were assessed by:

Tony Pell – Senior Construction Engineer,  
Emad Nashed – Construction Engineer

#### **8. Summary and Conclusion**

The Evaluation Panel has ranked CDN CONSTRUCTORS PTY LTD highly for this contract. The panel believes that CDN CONSTRUCTORS PTY LTD have demonstrated their ability via their tender submission and previous works undertaken for Kingston City Council, to provide the best overall value for the construction of CONTRACT NO. 11/69 – GAINSBOROUGH ROAD & DELVILLE AVENUE, MENTONE – ROAD RECONSTRUCTIONS.

#### **9. Triple Bottom Line Checklist**

- **Environmental Impact** - Environmental impacts during construction of these works will be minimised due to measures put in place for controlling stormwater runoff quality, including silt barriers and straw bales. The final outcome of the works will alleviate a significant drainage/flooding issue in the area.
- **Social Impact** - There will be inconveniences during the works which are typical of a large road reconstruction contract such as this one. A Special Clauses document was prepared as part of the contract package, which outlines a number of requirements set out by Council to stage the works and minimise community disruption as much as possible.
-

**City of Kingston  
Special Council Meeting**

**Agenda**

**12 September 2011**

---

- **Budget/Financial Impact** - For the subject contract the preferred tenderer represents the best outcome to Council in terms of value for money and level of risk. The submitted price from the preferred contractor is below the Design Engineer's estimate.

**10. Recommendation**

"That Council awards CONTRACT NO. 11/69 – GAINSBOROUGH ROAD & DELVILLE AVENUE, MENTONE – ROAD RECONSTRUCTIONS – on a Lump Sum basis to **CDN CONSTRUCTORS PTY LTD** for the tendered price of **\$919,832.75** Please refer to the "Confidential Attachment" outlining the scoring matrix and all other submissions.
