

information bulletin

To the Resident,

Le Page Park Playspace Renewal

The Le Page Park Playspace is being upgraded, to provide residents with new and improved equipment for children of all ages, landscaped gardens and new park furniture for all to enjoy.

Council is writing to advise nearby residents that the existing playground facilities will be demolished and a new playspace will be constructed in the coming weeks.

In late 2020 Council consulted with the community regarding the playspace design and we thank everyone that provided feedback. Your input helped inform the plans for the playspace.

The renewal will feature (see images overleaf)

- a new neighbourhood-level playspace with play equipment for children of all ages, including junior and senior combination units and a rubberised surface
- new park furniture including a drinking fountain, picnic table, park seats and bin
- new paths
- new garden beds and shade trees.

Construction impacts and timeframes

The playspace renewal and associated landscape works will commence at the end of June and will take up to twelve weeks to complete (weather permitting and subject to COVID-19 restrictions).

To ensure a safe environment access to the park may be restricted whilst construction is underway.

We apologise for any inconvenience during the works and will minimise disruption wherever possible.

Temporary fencing and signage will be installed during construction works for the safety of the community.
