

Sessional Kindergarten/Preschool

IN THE CITY OF KINGSTON

From 2022 the Victorian State Government will provide funding for both three and four-year-old kindergarten. This means that all children will be eligible to attend two years of funded kindergarten before they start school.

The City of Kingston is committed to facilitating an equitable registration and allocation process for families to access sessional kindergarten; and administers a central registration scheme on behalf of participating community and early years managed kindergartens and preschools.
