An update on the Le Page Park Master Plan

As part of our ongoing commitment to improving Kingston's open spaces, Council developed a Master Plan for Le Page Park in 2022, informed by extensive community consultation. Your feedback has played a vital role in shaping the vision for the park.

In October 2025 we shared a refined layout of the Master Plan that worked with the park's existing features, including trees, underground services and surrounding infrastructure.

Thank you to everyone who took the time to provide feedback on the updated design, we heard your feedback and have adjusted the design to support your needs. The Le Page Park Masterplan (enclosed) was endorsed by Council at the November Council Meeting in 2025.

The final design includes:

- **Tennis court and pavilion**
  The 6 new tennis courts will be located in a row, with the new pavilion at the eastern end and a new carpark adjacent to Herald Street. Pickleball line markings have been removed from the tennis courts as this is not supported by the club. We are continuing to work with the club on the pavilion design.
- **Relocated driveway** to the south-west boundary, a kiss and go zone will be set up in the 5 parking bays closest to the school. The car park will have a single entry and exit, and reduced spaces due to site and traffic limitations.
- **Upgraded pedestrian paths** to create all-abilities accessible connections across the park.
- **Replacement of the existing public toilets** with a modern facility in the same location.
- **New repositioned cricket nets** aligned north–south to meet Cricket Victoria standards (four bays, increased run-up and fully enclosed).
- **Two new netball courts** including player shelters, floodlighting and safety fencing (two courts, multi-lined).
- **A new Active Recreation Zone** west of the playground, with equipment for scooters, bikes, climbing, fitness equipment, hit-up wall for informal ball sports, multi-use half-court for netball, basketball and futsal. *Note: consideration of an additional hit-up wall if feasible, within the tennis club area.*
- **Upgrades to Oval 1 and 2** including LED sports lighting upgrades, surface improvements and behind the goal netting on both ovals. Netting proposed at tennis court end of Oval 1 and car park end of Oval 2. *Note:* d*og off leash retained on Oval 2.*
- **Herald Street carpark** will now be located to the north-east of the park and feature an entry off Herald Street. The current entry road will be closed and returned to open space.
- **Playground** remaining, no changes.
- **New amenities** including BBQs, seating, shade structures, bike parking and more.
- **Landscaping** to include the removal of select trees in order to deliver the works, trees will be replaced 3:1 at Le Page Park and nearby reserves.

Construction stages

Preliminary works (starting May 2026)	Tree removals and demolition of existing cricket practice nets, tennis clubhouse, tennis courts, and netball courts.
New cricket practice nets (from mid-2026)	Construction of replacement cricket practice nets in their new location.
Southern precinct (from mid-2026)	New south-west carpark, public toilet facility, active recreation zone, and netball courts. Oval surface improvements will also take place during this phase.
Tennis precinct (2027)	Retaining wall to the rear of the new tennis courts, followed by the new tennis pavilion and 6 new tennis courts.
Landscaping and planting (June 2027)	Final landscaping and tree planting across the park.

Timing and impacts

Preparatory works for construction are due to commence in May with tree removal works taking place in the park.

Temporary fencing and exclusion zones may be installed for the safety of the community during the tree removal works. These works are anticipated to be complete within a week, weather permitting. There will be unavoidable noise throughout the works, and we apologise for any inconvenience and will work to minimise disruption wherever possible.

The project is due for total completion in June 2027, weather permitting. Further updates on the project will be provided as works progress. We look forward to delivering this exciting project for the local community.

FINAL: LE PAGE PARK MASTER PLAN

YOUR KINGSTON YOUR SAY

1. **Argus Street Carpark**
   A kiss and go zone will be set up in the 5 parking bays closest to the school. The car park will have a single entry and exit and reduced spaces due to site and traffic limitations.

2. **Active Recreation Zone**
   The multi-court is located west of the playground, with equipment for scooters, bikes, climbing, fitness equipment, informal ball sports, multi-use half-court for netball, basketball and futsal.

3. **Two new netball courts**
   Includes player shelter, floodlighting and safety fencing (two courts, multi-lined).

4. **Tennis Courts and Pavilion**
   The 6 new tennis courts will be located in a row, with the new pavilion at the eastern end and a new carpark adjacent to Herald Street. Pickleball line markings have been removed from the tennis courts as this is not supported by the club. We are continuing to work with the tennis club on the pavilion design.

5. **Public toilets**
   Replacement of the existing public toilets with a modern facility in the same location.

6. **Playground**
   Existing playground remaining, no changes.

7. **Picnic Shelter & BBQ**
   A new picnic shelter and BBQ will be installed in between the new active recreation zone and existing playground.

8. **Herald Street Carpark**
   This carpark will now be located to the north-east of the park and feature an entry off Herald Street. The current entry road will be closed and returned to open space.

9. **Oval Upgrades**
   LED sports lighting upgrades, surface improvements and behind the goal netting on both ovals. Netting proposed at tennis court end of Oval 1 and car park end of Oval 2. *Note: Dog off leash retained on Oval 2.*

10. **New repositioned cricket nets**
    Aligned north–south to meet Cricket Victoria standards (four bays, increased run-up and fully enclosed).

11. **Upgraded pedestrian paths**
    Creating all-abilities accessible connections across the park.

Note: Plan is indicative and for illustrative purposes only.
