Cr Eden returned to the meeting at 7.35pm

Question Time

Antony Falkingham asked,

“In Parkdale along Como Parade West and East, between Warrigal Road and Parkers Road numerous boats, caravans and trailers have been parked in the indented car parks. These car parks were constructed to provide parking for commuters and overflow parking for the Parkdale strip shopping centre. Has this changed? Is Council now providing free storage and parking for residents who own a caravan, boat or trailer? There is already a lack of car parks in this area, and having this area as a 'storage facility' is damaging the ambiance of the area.”

The General Manager Planning and Development provided the following response,

“Under the Victorian Road Safety Rules 2017, boats caravans and trailers are permitted to park on local roads within the City of Kingston if they are less than 7.5 metres in length and have a gross vehicle mass of less than 4.5 tonnes. To assist Mr Falkingham, and following some community feedback the Traffic Team has proposed 'no parking on nature strip' signs along Como Parade West, Parkdale between Herbert Street and Rennison Street where majority of the concerns of caravan parking have come from. The signs will help to discourage caravan parking along the road on the rail side and will likely be installed in the next 4-6 weeks.”

Tom Maher asked,

*"Kingston Council declared a Climate Emergency and endorses net zero emissions by 2030. It is good that the Council and the community are responding to the need for action. Kingston Council currently has an electricity purchase agreement with Alinta Energy. Environmentally, Alinta Energy is rated 40th out of the 48 electricity suppliers in Victoria (*1). Alinta plans to burn coal until 2047 and frequently causes environmental harm. It is Australia's 7th biggest climate polluter. The arrangement with Alinta is incompatible with Kingston Council and community commitments for 2030. What is Kingston Council's plan to change supplier? *1 Green Electricity Guide January 2022"*

The General Manager Planning and Development provided the following response,

"Council purchases renewable energy through a Power Purchase Agreement with Alinta Energy, that is contracted until 2030. The voluntary Large Generation Certificates are provided via the Bald Hills wind farm. This agreement was entered into as part of a group purchasing arrangement, managed by Procurement Australia.

The energy to power Council's large facilities and street lights is a significant purchase. We are bound by the Local Government Act, which requires such purchases be offered through an Open Tender Process. Procurement Australia managed this group purchase process for 10 Councils – which is offering a substantial amount of renewable energy to the market.

Council will honour its contractual arrangement and notes that offering large amounts of energy through a long-term purchase agreement gives renewable energy providers certainty in demand and enables confidence in investment, which leads to more renewable generation being built and supplying the grid.

We do hope the outcome of the Council's decision assists companies such as Alinta Energy making greater investments into renewable energy projects."

Rob Luker asked,

"Re: Item 8:10 Mentone to Parkdale Level Crossing Removal Objectives - Council Meeting 31/1/2022 Dear Councillors I refer to item 8:10 Council Meeting 31 January 2022 Agenda and Minutes. It is obvious council's adoption of the "Early Objectives Report" is in defiance of the communities preference for "Rail Under Road" for Warrigal and Parkers Roads level crossing removal. The "Early Objectives Report" clearly favours the "Skyrail" option and neglects to discuss the "Rail Under Road" option and impacts both options may have on the area. One can only conclude Council has been directed by a "Higher Authority" to relax their opposition to "Skyrail in an attempt to convince the community that council has done "their bit" objecting to the State Governments "Skyrail" preference. Questions: Did the mayor, any Councillor or Council officer receive a reply from the Minister for Transport Infrastructure, Jacinta Allan in relation to the formal letter sent to her following the September 2021 Council meeting? If so, what advice was provided and why hasn't that advice been communicated at the January council meeting and the community? If not, has any Councillor or Council officer followed up with the Minister, either in writing or verbally, to obtain a reply and to ensure the Minister is fully aware of the community's opposition to "Skyrail"? Why has council adopted the "Early Objectives Report" when it is clearly slanted towards "Skyrail" and is in defiance of the community's preference for "Rail Under Road"? The community deserves to have answers and to ensure this Council supports the wishes of the majority of the community they represent. I look forward to your reply."

The General Manager Planning and Development provided the following response,

“Council was recently advised that the Minister for Transport Infrastructure has acknowledged Council’s correspondence and is willing to discuss the matters raised with Council.

The Council correspondence to the Minister provided details of the community feedback it had received.

The report of 31st January 2022 made clear that LXRP have indicated that rail over road option is the one which they are progressing. The report included the previous resolutions of Council and sought to provide initial feedback regarding aspects that warranted consideration if this option proceeded.

The LXRP advice is consistent with its widely circulated latest community update which states ‘We’re removing the dangerous and congested Warrigal Road and Parkers Road Level crossings by building a rail bridge over the roads and a new Parkdale station.’”

Pat Tilley asked,

“Council has advertised for applicants for their advisory committees closing this week. However two existing committees i.e. Public Spaces and Environment and Community Safety do not call for applicants. Could Council please update the community on why these are not included and any future plans for them?”

The General Manager Corporate Services provided the following response,

“Council is currently proposing to rename the Public Spaces and Environment Advisory Committee to the Environment and Open Spaces Advisory Committee and the Terms of Reference will be presented to the March Council Meeting for adoption. The process of advertising for applications for membership to the Committee will begin mid/late March, with members being appointed after Council has adopted the Terms of Reference.

The membership of the Community Safety Advisory Committee includes Victoria Police, State Emergency Service, Neighbourhood Watch, Lifesaving Victoria, Ambulance Victoria, and the Country Fire Authority. It does not include community representatives. This is to ensure that sensitive operational matters can be discussed between the participating emergency services. The Safe & Secure Action Plan, currently in draft, which guides the work of the Committee, has been informed by extensive community consultation and engagement during the past 12 months. Community engagement and consultation is also undertaken in relation to specific projects and through Neighbourhood Watch.”

**10.2 Response to Notice of Motion No. 18/2021 - Cr. Howe - Kananook Creek
and Road Reconstruction**

Moved: Cr Howe

Seconded: Cr Hua

That:

1. Council receive a report no later than June 2022 responding to the endorsement of the bare site adjacent to the Emma Street footpath and footbridge for integration of a viewing area with landscaping, including:
 - a. Outlining opportunities to integrate the southern footpath with modern pavers, featuring at least two island bench seats made from natural timber within produced plans;
 - b. Fishing and viewing from an independently supported parallel boardwalk to the area is to be outlined in plans with educational and directional signage, including with a supporting render and any such approvals required shall be sought;
 - c. Proposes project timelines and community engagement processes; and
 - d. Refers the project to the 22/23 financial year budget process with costings.
2. Note that the report by EcoLogical study states: "None of the indigenous species are listed as threatened, or protected under the FFG Act protected flora list or EPBC Act list" that scored mostly low for habitat respectively 38, 38, 42, 33, 34, 31 and 30.
3. Apply for permits if required and remove non-significant, indigenous vegetation burnt by arson or dead that is to be replaced with indigenous vegetation, and continues to remove noxious and high threat weed infestations accounting for 54% of the species reported by EcoLogical to exist.
4. In the new road analysis replacing the 2017 study, highlight Eel Race Road as a priority to be considered in the 5 year program between Emma and Valetta streets, which rated as 6.2 in 2017 and was subject to remediation works in 2021.
