climbing plant

Mandevilla dipladenia
Trumpet Flower
Climbing

shrubs, grasses & groundcover

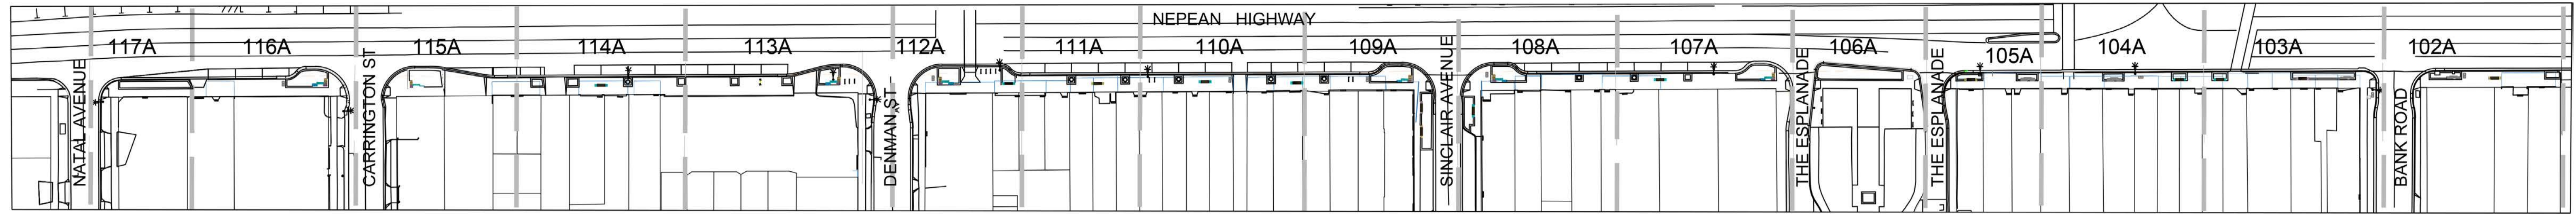

Raphiolepis indica
Snow Maiden

Westringia fruticosa 'Mundi'
Coastal Rosemary

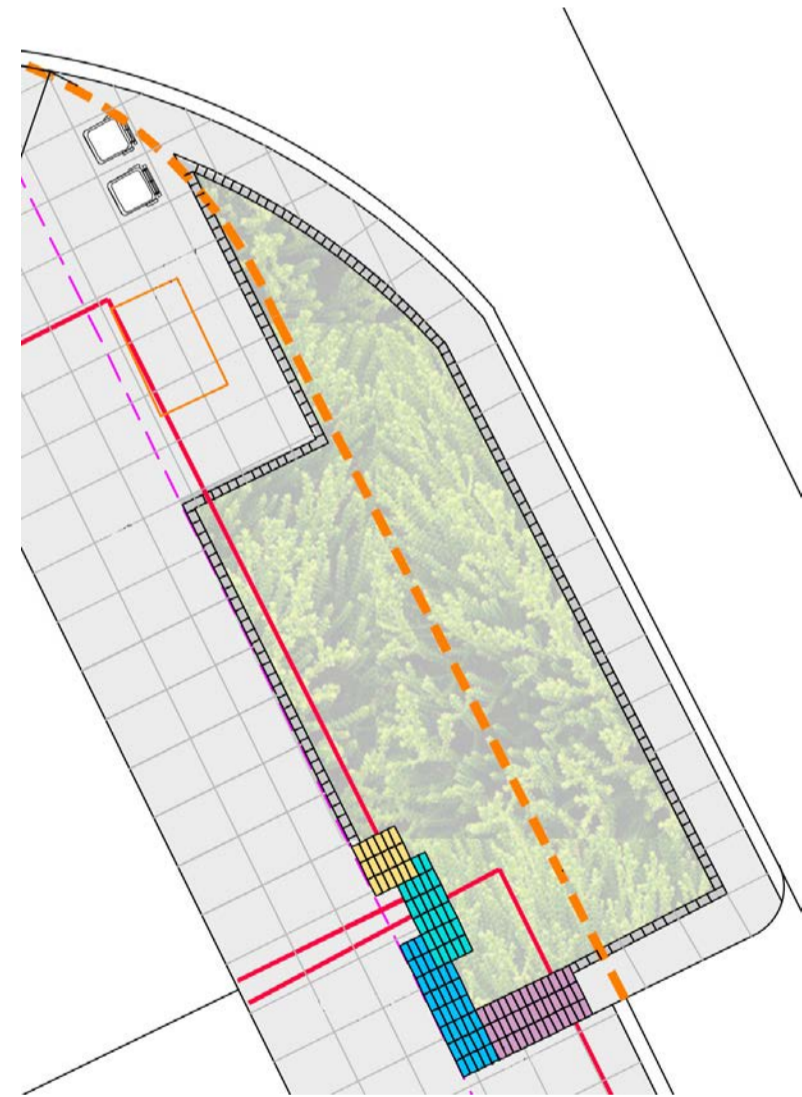

key plan

design elements

Kerb Extensions

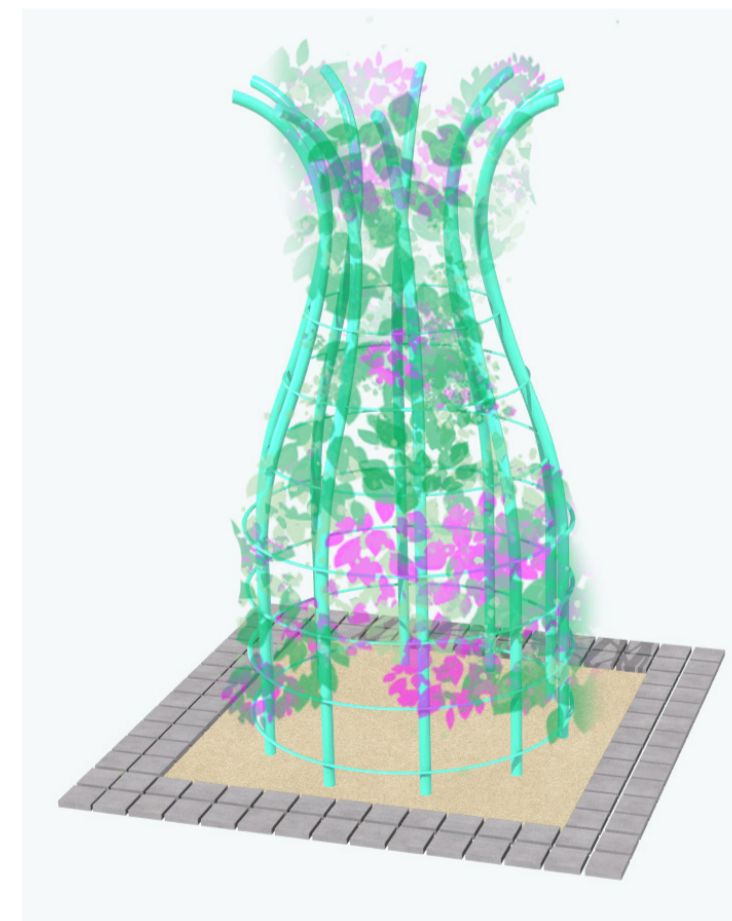

In areas where there is all day parking the kerbs on the street corners will be widened to allow for wide garden beds.

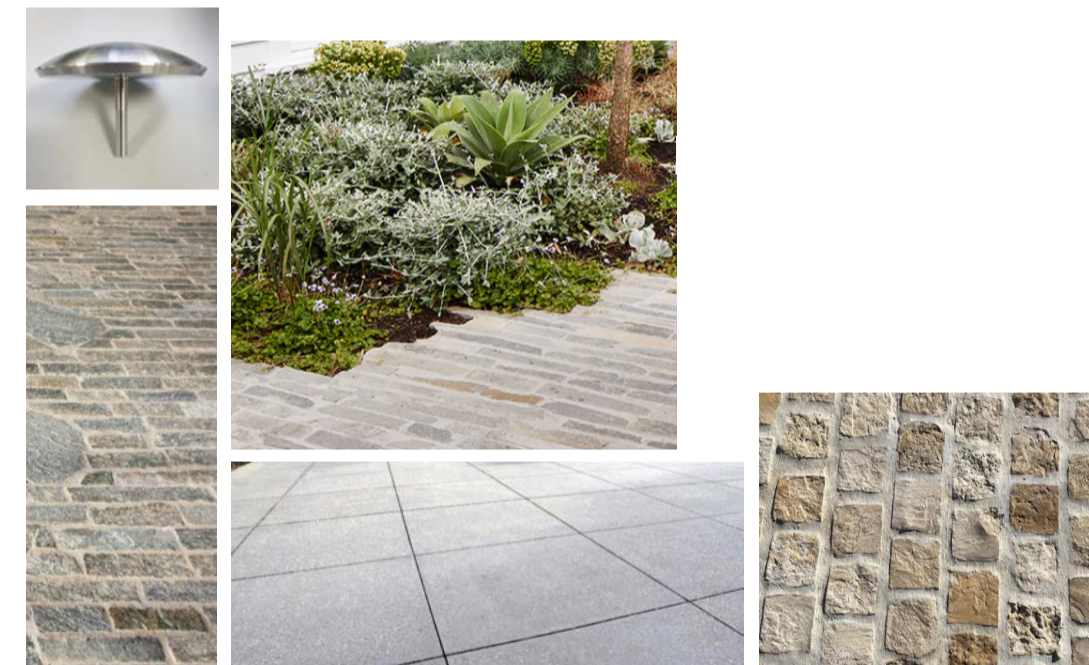

Freestanding Climbing Plant Structures

Freestanding climbing plant structures will be placed at alternate car parking spaces.

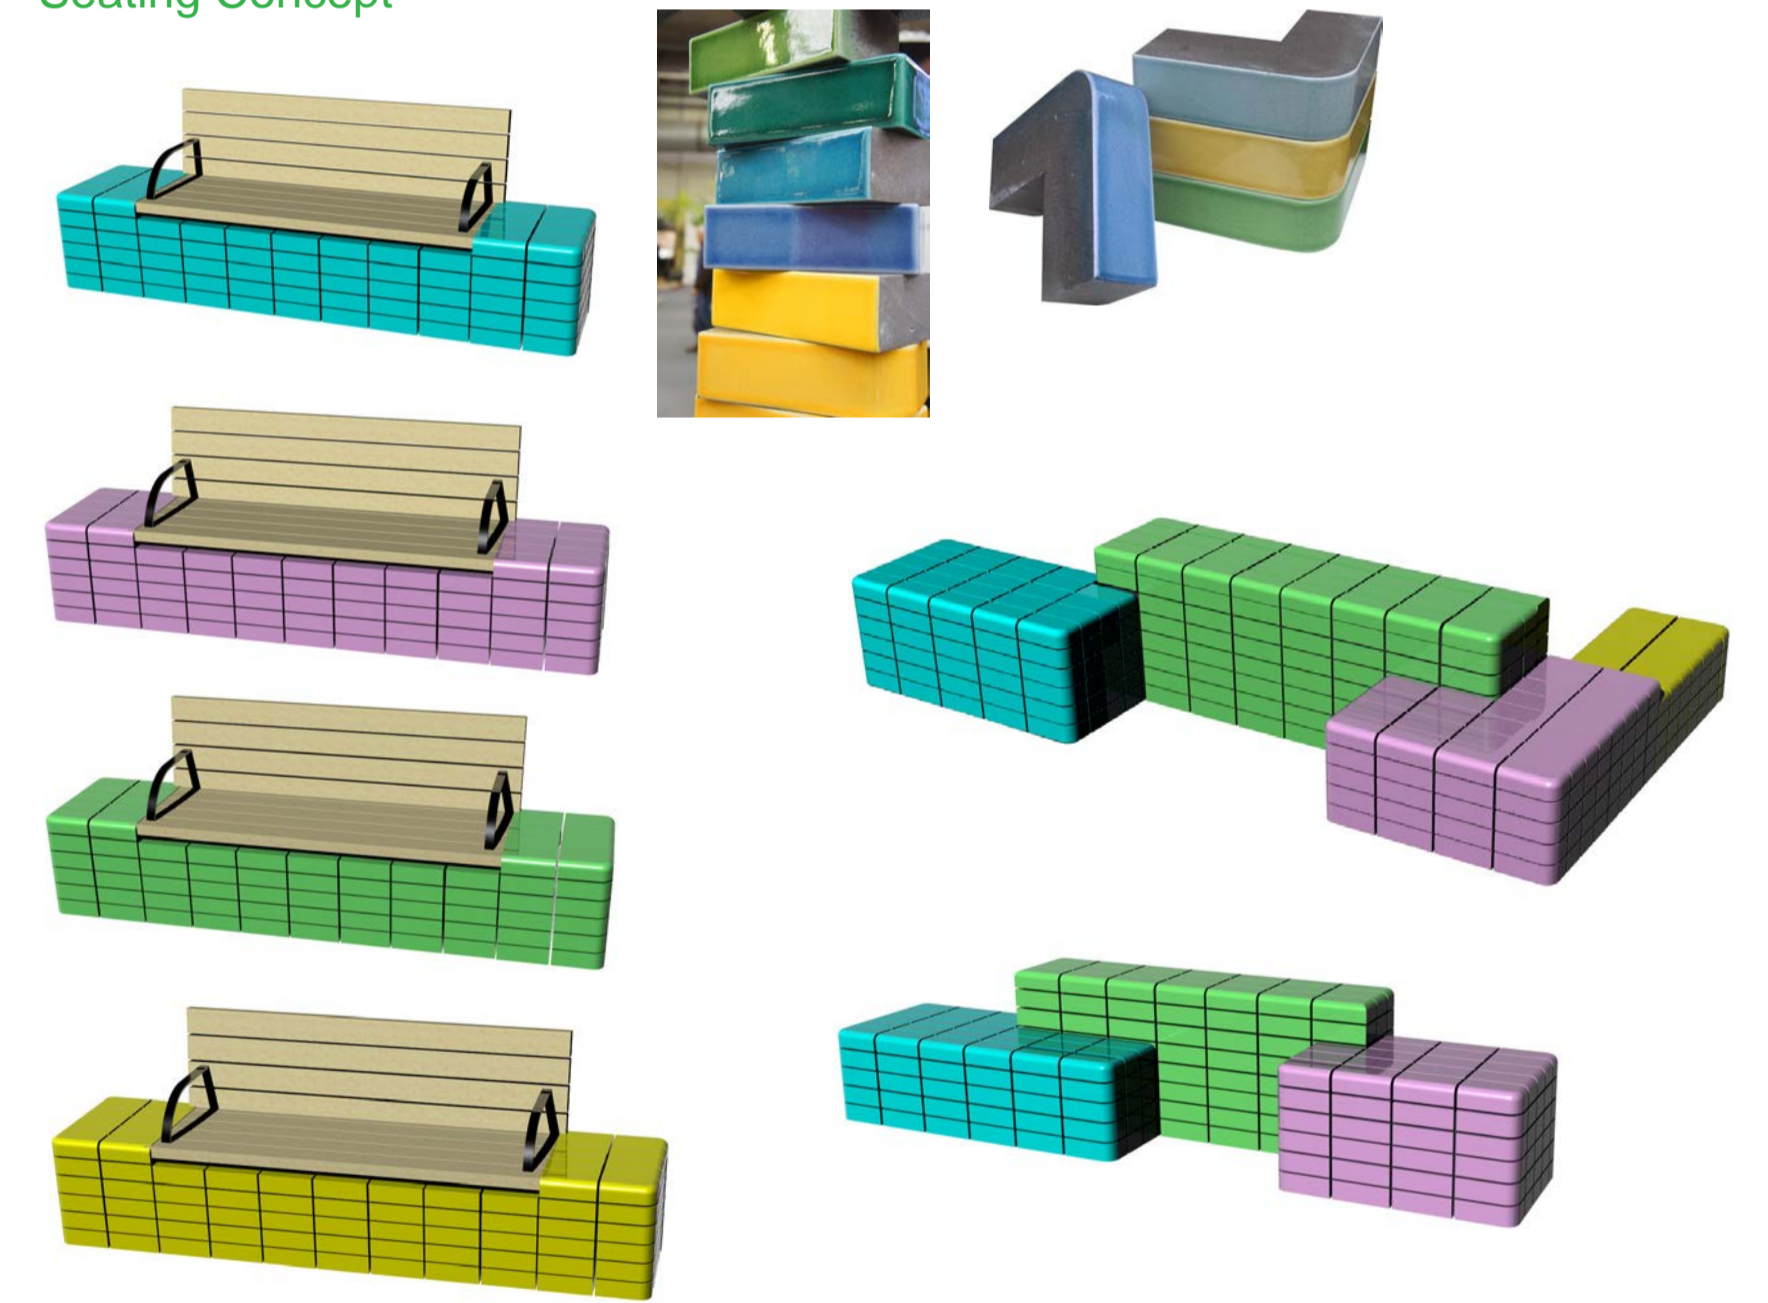

These will be planted with climbing plants to soften the hard landscaping and help to create a sense of enclosure for pedestrians along the street.
