Q: How is priority of allocation decided under the EOI?

A: Council policy outlines the below priorities and includes ensuring a balance of programs within a specific facility. Council wants to ensure a diverse mix of activities that meet local community needs.

Priority 1 Council Programs and direct Council services

Programs and services directly provided by Council in response to community need will have primary and exclusive use of Council's community facilities where appropriate and be given the highest priority in their access and allocation (this is not applicable to staff meetings).

Priority 2 Community Development and Partnerships

This category consists of not-for-profit community-based groups; funded organisations and agencies that service community members that live, work, or have a connection with the City of Kingston.
